Statement of interest

As a member of the Governing Council of the OMSS as a Delegate at Large I have learned the importance of continuity, experience and most of all the need for being able to respond to the needs of the members of our section.

We are cohesive and yet we wish to work with other sections within the AMA to create a "home" for all physicians.

I am currently the Vice Chair of the New Jersey Delegation to the AMA and work with in the HOD to advance the causes that effect the members of the OMSS.

I am the President of the AMA Foundation and in this role have been able to work within the AMA to further the advances needed for equitable healthcare. There is much work that has been done but there is so much more to do. I believe I can add this aspect to the future endeavors of the OMSS.

I have held leadership positions at the state and national levels both within the general medical field as well as within my specialty society.

As a solo practice physician who also, is an Associate Professor of Neurology at NYU Langone Health, I have the unique perspective of being both an independent practitioner and an employed physician which allows me to use this for the betterment of the OMSS.

I feel that I will continue to to be able to keep OMSS relevant and inclusive.

I look forward to the opportunity of being in a leadership position.
