

LGBTQ+ Section: Research and Education Committee Report

Benjamin Laniakea, MD, Shail Maingi, MD

GOAL of Committee: Enhance LGBTQ+ health through research and education.

Strategic Plan Objectives for 2024-2025:

- The Research and Education committee to establish needed resources, tools, host regular meetings, engage committee members to carry out the work and initiatives of the committee. By Annual 2025, we will have a baseline for committee members and increase that by 2% by Interim 2025.
 - Accessible and updated LGBTQ+ curriculum for medical students.
 - By November 2024, hold an education session at Annual regarding medical mistrust.
- By June 2025, hold an education session at Annual with a panel of intersex advocacy groups, experts and patient community members.
 - Reach out to stakeholder groups and potential collaborators: surgical caucus, urology, OBGYN, interconnect, interACT, Federation
 - Reach out to stakeholder groups, namely MAS, MSS, Center for Health Equity who may want to collaborate on the education session.

ACTIVITIES:

Held inaugural committee call October 15th – this Google document was created for volunteer sign up/engagement. View [here](#).

- Volunteers needed for a working group to update MSS/LGBTQ+ Health Care Tool Kit on Ed Hub
