

## **5-year Review of National Medical Specialty Societies and Professional Interest Medical Associations**

---

In 1987, the American Medical Association (AMA) House of Delegates (HOD) adopted Report A of the Council on Long-range Planning and Development, which established a 5-year review for specialty organizations seated in the HOD.

The 5-year review is a process designed to verify:

- That AMA membership within the specialty society is sufficient for continued eligibility in the AMA HOD
- That the specialty society meets the guidelines and bylaw requirements for representation in the HOD
- Every specialty organization and professional interest medical association represented in the HOD participates in the five-year review process according to the following schedule:
